

Fume extraction unit for welding fumes.

- Washable spark arrester

- G4 pre-filter

High efficiency fan (220V 50Hz AC motor)

- Max. 3000 m³ / h fan capacity
- Average 7 m/s face air velocity

F9 cassette main filter

- High capacity for welding fumes

Body

- Galvanised steel structure
- Wheels for easy move

Dimensions

- 1100x700 mm working area
- 850 mm working height

Optionally activated carbon filter

Optionally fan speed adjustment

Welding

Grinding

and more....
